DATE: 02/09/98

C.O.: Co. III Schoebel

TIME: 3:00pm

On the above date and time, I Co. Schoebel was informed by 1st shift that they were going to allow inmate Quentin L. Tracy (980219) into F-dayroom. This was approved by Sgt. Wagner as long as the dayroom was inspected and there was no objects in which he could harm himself with. Co. Gau inspected the area and found that a fire sprinkler cover was missing and that mortar could be pulled down from the ceiling. [REDACTED] dayroom privileges were denied due to him previously pulling mortar off the walls and swallowing chunks of it, causing him to go to the emergency room. [REDACTED] was told that maintenance was notified of the situation and as soon as it was repaired he would be allowed to go to the dayroom.

Inmate [REDACTED] did not like or agree with this decision and became very disruptive. He began to bang his flap and lay on the ground and stamp his feet as loud as he could on the door. He then ripped off his bandages and began to pick at the staples in his arm from a previous suicide attempt at the jail. Staff attempted to talk to [REDACTED] along with the nurse Lucy Tiry, but Tracy refused to listen. [REDACTED] was disrupting the downstairs jail with his disruptive behavior.

Nurse Tiry then contacted P.O. Barb Kode to see if [REDACTED] could be taken to the Health Care Center. At 4:00pm, Barb Kode called back and stated that she would be faxing the paperwork to release Tracy to HCC and she would be handling him getting committed there.

At approximately 9:00pm, [REDACTED] had still not been transported to HCC. Lt. Strand had called back to the jail to inquire about the situation. I stated that we were waiting for [REDACTED] to be transported. Lt. Strand informed me that Barb Kode did not have the authority to EM-1 an inmate to HCC. Only the Sheriff's Dept. could and we would not commit him at this time. Lt. Strand informed Barb Kode of this information.

At the above date and time, I Co. III Schoebel, Co. Norton, Co. T. Burns, and Co. Mullenbach entered inmate [REDACTED] (980219) room (F-1) to remove his property due to him placing paper over his camara throughout the shift. [REDACTED] stated he was spitting up blood due to swallowing pieces of metal earlier in the shift. I explained to [REDACTED] that we contacted the nurse on call and that he would be seen by the nurse tomorrow. There was a small amount of blood in the toilet. I explained to [REDACTED] that he had to stop banging all the time and putting paper over the camara. As we left the room [REDACTED] stated, "I'm just going to hurt myself."

At approximately 8:20pm, [REDACTED] was physically pulling the metal staples out of his arm and squeezing his wounds to make the blood pour out of them. He was spreading the blood all over the room including the door flap and the camara. He wrote in blood, "Life Sucks" on the wall and "Die" on the door.

Sgt. Olig and McGee were contacted and reported to the jail at 8:30pm. Nurse on call Diane Cappozzo was contacted again and stated that the staples could not be put back in. Also as long as there was no active bleeding due to swallowing the metal he would have to wait to see the nurse tomorrow.

[REDACTED] was cleaned up, rebandaged, given new clothing, and had his room disinfected. [REDACTED] stated he wanted to see someone about getting his medication changed, they were not working.

Subject: Informational/fire Section I
CO: COIII Mary Steberg

Lock up #: 99-0849
Date: May 23, 1999
Time: 8:00am

On the above date and time, COII Janell Mueller and I, COIII Mary Steberg, were standing by the Main Control key pass-through. At what seemed to happen at the same time, we heard screaming coming from the Section H/I area and the fire alarm panel indicated that we had trouble in that area of the jail. At this time, COII Jerry Gau, who was in Main Control, confirmed that an alarm had been activated in this area.

CO Mueller and I responded immediately to this area. CO Mueller started to check Section H and I proceeded to Section I. The screaming was coming from Section I. As I looked into the window of this section, I saw that there was someone in the shower area of this section and he was on fire. I yelled to CO Mueller that we had a fire, to get help immediately, to get an ambulance in, and to notify patrol to respond to the jail.

I did noticed that an inmate in this section was attempting to put out the fire, with water in the garbage can of the section.

As CO Mueller was carrying out my orders, I went to the fire hose in the area and started to pull the hose off the hooks. Once I had the hose cleared, I turned on the water valve and went directly to the window of the section. I aimed the hose at the fire. At that time, CO Mueller returned with the section keys, along with COII Jody Marcoe and COIII Mark Kuether. The fire was extinguished prior to staff entering the section. There was very little smoke from this fire. A blanket was still smoldering but was extinguished.

I went directly to the inmate that had been on fire, asking the other inmates in the section who it was. I could not clearly see him because he was withering in pain, and screaming very loudly, his head was under the bathroom partition. An inmate from the section indicated that it was [REDACTED].

I observed that both of [REDACTED] lower leg areas, by the inner calf, had been burned. The jail uniform pants appeared to have been melted away from where the fire had been ignited.

As I was attempting to question [REDACTED] about what had happened, CO's Marcoe, Mueller and Kuether started to move the inmates out of Section I. I remained with [REDACTED]. Though I attempted to question [REDACTED] as to what happened, he was unable to answer my questions, due to him continuously screaming in pain. I attempted to calm [REDACTED] down until the ambulance arrived on the scene. I told staff to notify Sgt. Wagner and JA Strand of the incident. CO Marcoe returned to Section I.

At about 8:06am, Patrolman Evans arrived to Section I. I indicated to him that the fire had already been put out, but I asked him to make sure no other inmates from the section were hurt. Patrolman Bonack and M. Hardgrove also arrived to the area. The patrolmen assisted the jail staff with securing the inmates. CO Marcoe and I remained with [REDACTED]. I indicated that we should try to get some pictures of the incident.

At about 8:08am, the fire department personnel arrived on scene. Paramedics arrived and started to care for [REDACTED]. As the paramedics cut away [REDACTED] pants and socks to better observe the injuries to [REDACTED] legs, I noticed that toilet paper was remaining wrapped around [REDACTED] ankles, which had just previously been underneath [REDACTED] socks.

I indicated to paramedics that I believed [REDACTED] had started the fire from arching materials from an outlet in the section. CO Marcoe attempted to take Polaroid pictures of the incident.

After [REDACTED] was placed on the gurney to be transported to the hospital, I went to the Main Control station. At this time, CO Gau was on the telephone with Sgt. Wagner. I took the telephone. I indicated to Sgt. Wagner that the inmates from Section H were ordered by fire department personnel to be removed from the area also, and that had taken place right away. Fire department personnel helped air out this area of the jail. The fire department lieutenant questioned me if I had any injuries or other jail staff. I indicated that as far as I knew, no body else had been harmed, and that there had been very little smoke because the fire had been put out very quickly.

At that time, staff was moving the Section I inmates from Section E dayroom to receiving cells. The inmates were:

[REDACTED]

The inmates that had been housed in Section H, that had been moved to the upstairs multi-purpose room included:

[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]

Sgt. Wagner asked that a 15-minute security check be started on the entire jail. Staff, in the Secure Detention Facility and the Huber dorms, were notified to immediately check their respective areas. The main floor of the jail remained on 15-minute check until 11:00am.

CO Jerry Gau road along with [REDACTED] in the ambulance to the hospital, with a patrol escort.

At about 8:30am, Sgt. Wagner arrived to the jail. Shortly after JA Strand also arrived.

CO Gau later indicated in a telephone conversation that [REDACTED] was going to be placed in an unsecured room, until [REDACTED] was medically cleared. I proceeded to call-in staff coverage for this.

The responding patrolmen handled further investigation of the incident, Section I was secured by Patrolman Bonack as a crime scene. JA Strand indicated that a detective had been called to handle the rest of the investigation.

At about 10:30am, Sgt. Wagner and I walked through the receiving area, checking on the inmates that had been in Section I.

At about 11:50am, RN Lucy Tiry arrived in the jail and saw all the inmates that had been in Sections H & I.

[REDACTED], who was housed in H-5 at the time of the incident, indicated to RN Tiry that he had a headache, but would notify staff if he [REDACTED] had any other problems. No other inmate from either Section H or I complained of anything medically wrong, at which time RN Tiry cleared them.

Date: 05/23/1999

C.O.: Janell Mueller

Time: 8:00am

On the above date and time, I, C.O. Janell Mueller, along with C.O. III Mary Steberg were returning inmates to their cells from showering areas. As we were waiting to obtain keys, the fire alarm control panel sounded in Main Control and loud screaming was heard from the north wing area of the jail. C.O. Gau, the Control Officer at this time was questioned as to where the alarm had been activated. He indicated Section I.

C.O. III Steberg and myself immediately responded to the north hallway. As C.O. Steberg reached the door to Section I, she indicated to me that we had a fire. I could see flashes of light coming from within this section.

I immediately returned to the Main Control Station to inform C.O. Gau that we did have a fire in Section I and that we would need the fire department, an ambulance and additional assistance as soon as possible. As I communicated our immediate needs with C.O. Gau, C.O. Steberg activated the fire equipment (hose) located in the north hallway to extinguish the burning materials.

C.O. Steberg advised that there was an inmate in the shower area of this section with his jail uniform pants on fire. This inmate was later identified as BRIAN S. CAIN.....#99-0849.

C.O. Gau advised Communications Officer Elizabeth McDermott of our immediate needs at 8:02A.M.

I then returned to Section I with the section keys to allow better accessibility to the section for extinguishing the fire as well as removing the other inmates housed in this section to a safe location and away from the fire and small amount of smoke. As I approached this section, C.O. Steberg had the hose nozzle pointed into Section I through the door flap and was spraying water onto the fire. I observed a kink in the fire hose and immediately kicked the hose straight to allow more water to flow through the hose.

C.O.'s Mark Kuether and Jody Marcoe arrived at Section I at approximately the same time as I did. I immediately opened the door to Section I and C.O. Steberg entered the section. Inmate [REDACTED] was loudly screaming and was near the door laying on the floor underneath the bathroom stall partition. I immediately observed an inmate housed in this section with a wastebasket allegedly filled with water, pouring this liquid onto a pile of linen items, which were still smoldering near the dayroom table. I then ordered the other inmates housed in this section to exit the section. C.O.'s Kuether, Marcoe and myself escorted these inmates to the Section H Dayroom. These inmates included:

.....#99-1057

At approximately 8:06A.M., Patrolman Evans arrived in the jail and began to assist with the situation at hand. Shortly thereafter, Patrolmen Hardgrove and Bonack also arrived in the jail to assist.

C.O. Steberg was able to assist inmate [REDACTED] in moving away from underneath the bathroom stall partition and was speaking to him in an attempt to get him to calm himself. [REDACTED] continued to scream and appeared unable to calm himself.

C.O. Steberg began to question [REDACTED] about any other injuries or possible burns that he could have on his body. [REDACTED] did not respond to any questions asked of him and continued to scream loudly.

[REDACTED] jail uniform pants were observed to be burned on both legs on the inner calf area and a large amount of toilet paper was tightly wrapped around each ankle.

C.O. Steberg requested that photographs be taken before [REDACTED] was moved by medical/paramedic staff. I immediately went to retrieve the Polaroid camera. As I returned to Section I with the camera, I handed it to C.O. Marcoc who was inside of Section I to take the photos due to his location and a better angle of the situation.

At approximately 8:08A.M. the fire department arrived at the jail and began to assess the situation. All flames had been extinguished by this time. Paramedic staff entered Section I and immediately began to assess [REDACTED]'s burns on his legs. [REDACTED] was questioned as to any other injuries, which he may have sustained in this incident and I did not hear him respond.

Fire department personnel ordered that all inmates remaining in the north wing area of the jail be removed from the area. The inmates from Section I who were presently in the Section H dayroom were moved to the Section E dayroom and the inmates being housed in Section H were removed from their cells and placed in the Multi-Purpose Room on the second floor of the jail.

Sgt. Wagner contacted the jail and ordered a 15-Minute Security Round of the entire jail. At approximately 8:25A.M. while doing a routine 15-Minute Security Round, I stopped by the Section E Dayroom to check on the inmates temporarily placed there from Section I. It was at this time that one of the inmates stated to me that [REDACTED] had been using the telephone last evening and it was said that when speaking to his wife he was informed that she was leaving him. This inmate stated that he believed that it was this information that seemed severely depress him possibly resulting in his actions on this date.

05/23/99, 10:00 a.m.

I, DETECTIVE SOSINSKI, received a call from JAIL ADMINISTRATOR STRAND asking that I come to the Safety Building, specifically to the jail, to investigate a fire that had occurred in one of the cell areas. He advised that the area had already had photographs taken and he would like me to come in and review the scene.

Approximately 10:30 a.m. I, DETECTIVE SOSINSKI, arrived in the jail where I was able to meet with CHIEF DEPUTY MICK FINK and JAIL ADMINISTRATOR MARK STRAND. They briefed me on the incident and indicated that the fire incident occurred in Section I, in a dorm room, which at the time of the fire was housing eight inmates. They advised me that one of the inmates it appears set fire to himself and was subsequently extinguished between the efforts of another inmate and the jail staff, who were able to use a fire hose and hosed the subject down. The information is that the fire occurred by the inmate taking two pieces of lead and putting them in both sides of an electrical outlet, wrapping another piece of pencil lead with toilet paper and arcing across the two, causing the toilet paper to light, thereby causing himself to light. I was advised that he had wrapped his legs with toilet paper in addition to his clothing and this was what caught fire on his body and caused the damage. I was advised that the inmate had been transported to St. Agnes Hospital by the City Ambulance. I was further advised that DETECTIVE HESS had been called in to conduct interviews with all the other people that had been in the cell area and would be doing the interview follow-ups. The area had been evacuated and was being maintained as a crime scene until we were able to complete a scene investigation.

I then did go into the dorm in question and i was able to review the entire scene. I did locate the outlet, and it should be noted there were two electrical outlets in the room. Both were on the south wall and one fed a TV which was mounted high on the wall, and another branched off from that outlet down to an area approximately seven inches off the floor, and it would have been behind and underneath a bench for a picnic table type area. It is in this lower outlet, the top receptacle, where the pencil leads had been pushed into the outlet, where the fire had been created. The actual fire scene as near as I could determine would be in an area between the bunks and the shower room and it is this area where, according to information given to-me by JAIL ADMINISTRATOR MARK STRAND, that the inmate saw him kind of walking when he was on fire and it is where the jail personnel saw him when they went to extinguish the fire. It also appears as though he may have gone into the shower itself in preparing himself as there were small pieces of toilet paper and one small loop of toilet paper in the shower stall area as well. Additionally I did find a black garbage bag in the shower stall area and I did look in the garbage bag and.

J I did find papers which identified the majority of the garbage
P contents belonging to the victim, [REDACTED]. I also did
P observe two socks laying at the end of the toilet stall and I was
L advised that these had been cut off by the paramedics in treating
E the victim.

M After looking at the scene I did photograph the entire scene
E and I did draw a diagram on which I marked all of the items of
N interest. After looking at the materials I also attempted to
T determine if there could have been any other cause, based on the
information I had been given, and the only source of energy in the
entire jail area which was readily accessible to the inmates that
I was able to determine, was the outlet on the south wall. I also
did not observe any matches or lighters lying about the room and I
was also advised that the jail staff were going to be going through
and removing all of the inmates' property from the room prior to
cleanup and would also be monitoring for any type of ignition
devices in the process of removing the clothing, but as near as
could be determined the only source of ignition in the room would
have been the electrical outlets.

In reviewing the scene and in talking to MARY STEBERG, who is
correctional officer first on the fire scene, all indications are
that the victim, BRIAN CAIN, had wrapped himself with toilet paper
on his lower legs and ignited it using the electrical outlet.
Arrangements were also made with Maintenance to come in and remove
the outlet and plate outlet area and this outlet was subsequently
turned over to me by MAINTENANCE WORKER RANDY MARSH, who is also
the County's electrician. I did receive the outlet intact with the
pencil leads still remaining in the same position as they had been
left and this will be maintained as evidence as well. I was unable
to find any other source of ignition and indications were to me
that the subject wanted to do harm to himself by setting fire to
himself.

In speaking to the jail staff, and JAIL ADMINISTRATOR MARK
STRAND, there were no other injuries as a result of this fire and
all the inmates were going to be directed to be seen by a nurse as
soon as possible today just to make sure that there were no other
injuries and at this time no one was complaining of any other
injuries.

I did collect numerous materials from the room to supplement
the investigation. (See inventory for details.)

Date: 05/10/99

C.O.: Guell

Time: 8:30 p.m.

On the above date and time, I CO [REDACTED] was working in the main jail. Inmate [REDACTED] was being monitored for seizures due to him refusing to take his seizure medication. Inmate [REDACTED] turned the lights off to his room. CO Lauber turned on the lights. Inmate [REDACTED] turned the lights off immediately.

I approached [REDACTED] room. I turned on his light and offered him his medication. He refused the medication. I told him his light would have to stay on because he was being monitored for seizures. He said he would turn the light off again. I secured the flap on his door to prevent him turning his light off.

I entered the control station and [REDACTED] attempted to cover the camera in his cell. I approached the door to his cell and told him that if he covered the camera, we would remove all of his belongings from his room. [REDACTED] threw his bedding toward the door and said he did not care.

I entered the control station. A couple of minutes later [REDACTED] covered the camera in his cell. CO Lauber, CO Lafferty, and I approached the cell. I told [REDACTED] to set the cup of pencils that was between his legs on the floor. He did not respond. CO Lauber and I entered the cell. I told [REDACTED] to remain sitting on the bed. I informed him that any threatening moves would result in him being sprayed with pepper spray. [REDACTED] said he did not care. I removed the cup of pencils from between [REDACTED]'s legs. CO Lauber and I removed the bedding from the floor. CO Lauber and I removed books and other property from the room. There were pieces of apple on the floor, on the bedding, and there was apple all over the inside of the cell door. We continued to remove property from the room.

[REDACTED] stood up and CO Lauber instructed him to sit on the bed. [REDACTED] said no, he would not. CO Lauber and I repeatedly told [REDACTED] to sit on the bed. [REDACTED] said he would not. He said to go ahead and spray him. I approached [REDACTED]. I told him to give me the item he had behind his back. [REDACTED] refused and said not to touch him. He pointed toward his eyes several times and said "spray me, I don't fucking care." I told him to turn around, that we were going to pat search him. [REDACTED] again refused saying not to touch him.

CO Lauber told [REDACTED] to give us the item from his hand. [REDACTED] reached toward CO Lauber and pushed him. [REDACTED] moved toward CO Lauber in an aggressive manner with clenched fists. I CO Guell sprayed [REDACTED] with pepper spray. CO Lauber took a magazine from [REDACTED]'s hand. [REDACTED] said the spray did not bother him and advanced toward us with clenched fists as we exited the cell. I again sprayed [REDACTED]. [REDACTED] said it did not burn and picked up his mattress and threw it at CO Lauber as he exited the cell. The mattress did strike CO Lauber. CO Lauber grabbed the mattress and removed it. We got out of the cell and CO Lafferty locked the door.

[REDACTED]'s eyes appeared to be affected by the spray. I asked [REDACTED] if he wanted assistance in cleaning out his eyes. [REDACTED] was rinsing his eyes and started to pace in his room. I asked again if he wanted assistance and he did not answer. [REDACTED] continued to clean his eyes with the water from the sink.

A Use Of Force Report form for O.C. Spray is attached to this report. End of Report.
